

UNIT 4: Lecture cast Exercises And Data Management Pipeline Test

On completion of this unit I was able to:

- Clean and transform data using the data pipeline as a guide.
- Examine and understand factors that affect data cleaning.
- Understand requirements for design automation (University of Essex Online, 2024).

The screenshot shows a web browser window with multiple tabs. The active tab is titled 'my-course.co.uk/mod/quiz/view.php?id=910333'. The page header includes the University of Essex logo and navigation links: 'Online', 'Home', 'Dashboard', 'My Modules', and a 'Recent' dropdown. A search bar and notification icons are also present. The main content area features a banner for the 'Data Management Pipeline Test' with a green 'Done' button and a purple 'Re-attempt quiz' button. Below this, it states 'Grading method: Highest grade'. A section titled 'Summary of your previous attempts' contains a table with the following data:

Attempt	State	Marks / 2.00	Grade / 10.00	Review
1	Finished Submitted Saturday, 23 December 2023, 7:55 PM	1.75	8.75	Review

Additional buttons for 'Review' and 'Knowledge Base' are visible on the right side of the table.
